

HEALING TOUCH INFO SESSION

Healing Touch is a relaxing, nurturing energy therapy. Gentle touch assists in balancing your physical, mental, emotional and spiritual well being. Healing Touch works with the body's energy field to support its natural ability to heal. It is safe for all ages and works in harmony with standard medical care.

Healing Touch is able to provide a supportive environment for the person undergoing cancer treatment.

It may also help to decrease some of the side effects of treatment and help to improve quality of life. It is recognised by the Nurses Board of WA to be both beneficial and non-harmful to patients and is used in many hospitals world wide.

2nd April – Saturday – 2.00pm to 4.00pm

By donation - Light refreshments served
